of His Highness the Maharaja of Mysore,
General and Revenue Departments,
Bangalore

Sir,

With reference to your docket-no 13274/ml 306-08-1, dated 30th June 1909, forwarding for disposal and report with connected papers, petition from the residents of Harihar to the address of His Highness the Maharaja of Mysore, complaining that the present water works benefit the residents of the fort only and not those of the other parts of the town, I have the honor to submit herewith, a copy of the resolution

resolution of the Municipal Council in the matter and to state as follows

The members of the Council are of opinion that the petition is from a few people whose houses are situated at a distance from the taps and the rest have simply put their signatures without knowing the contents of the petition

It is reported that there are at present 20 taps for the whole town, which are distributed all over the important and thickly populated streets The Council are alive to the necessity of more taps in the town and have resolved to increase the number of taps every year as far as funds permit and thus see that every part of the town is provided with water supply as early as possible

Last year, a sum of Rs 402/- was placed at the disposal of the Executive Engineer, Water supply and Sewers Division for

for constructing additional fountains it is learnt that the work could not be completed before the close of the official year, the collection of materials being done only at the end of June last These (4) four fountains will be constructed this year

As regards the question of the in-discriminate levy of tax, I beg to state that the financial condition of the Municipality did not admit of meeting the annual maintenance charges of the water works and the tax had necessarily to be revised to find funds for the above purpose and the same has been revised to the extent necessary As the water works have been constructed for the benefit of the whole town, these petitioners cannot be made an exception as regards the imposition of the tax as they are also benefitted

The

The vernacular records bearing on the subject to-gether with the petition is herewith submitted for reference and kind return when no longer required

I have the honor to be,
Sir,
Your most obedient servant
